

Is this the future of New Kent?

We're one of Virginia's fastest growing counties.

But without a strategic plan to manage the growth, our future could easily be filled with truck stops, fast food restaurants, and convenience stores.

The Partnership for New Kent 2030 is a citizen-led group committed to preserving our county's unique natural beauty and rural character.

New Kent recently created a committee to address the lack of a strategic plan and to update its outdated comprehensive plan. PNK2030 wants county government to adopt detailed plans for what kind of growth to allow at I-64 exits and along Route 60 - before outside developers come in and decide for us.

New Kent must actively manage the growth to maintain its rural character and quality of life. But, county government needs a comprehensive plan and a strategic plan now to make that possible.

Are you thinking what we're thinking?
