

Will New Kent be a great place to live 10 years from now?

We live in one of Virginia's fastest growing localities. But does our county government have a realistic plan to control the growth? The Partnership for New Kent 2030 is a citizen-led group committed to preserving our county's unique natural beauty and rural character.

Our Goals

PNK2030 wants our elected officials to address the concerns of residents and prepare for our future by:

- ✓ Creating a real plan for what kind of growth to allow at I-64 exits and along Route 60 – before outside developers come in and decide for us.
- ✓ Requiring transparency and community input from our residents before new land use decisions are made. Future land use permits must have well-publicized public hearings so all our residents can have their say.
- ✓ Prioritizing new revenues from the reopened Colonial Downs toward improving our schools, infrastructure, and local services.

Are you thinking what we're thinking?
