

Is New Kent's government transparent, responsive, and accountable to you?

▶ As one of the fastest growing counties in Virginia, those we elect to lead New Kent's government will have an enormous influence on what our county will look like ten years from now.

▶ Direct citizen involvement is the most effective way to ensure land use decisions made by county government reflect the vision and aspirations of our residents for the place they call "home."

▶ The Partnership for New Kent 2030 is a citizen-led group committed to preserving our county's unique natural beauty and rural character.

▶ PNK2030 wants our elected officials to require transparency and community input from New Kent residents before new land use decisions are made. And to ensure all our residents have their say, all future land use permits must have well-publicized public hearings.

Are you thinking what we're thinking?
